SCHOOL IS COOL

THURSDAY, OCTOBER 13, 2022

It's not just a place where you get to learn Einstein's Theory of Relativity. It's also a place where you can think beyond the classroom. Hence we say, SCHOOL IS COOL!

03

Festivities promote culture & tradition

Culture-based education is an approach in which teaching and learning happens based on the values, norms, beliefs and practices that are the foundation of any culture. It is important to create a curriculum that incorporates diverse perspectives.

Festivals promote diversity, boost creativity, offer opportunities for civic pride, and they improve our general psychological well-being. Keeping this notion in mind, DPS, Warangal held Bathukamma and Dussehra celebrations on a grand scale.

The event began with the participation of Pre-Primary students and their parents. Chair-

Delhi Public School Warangal

man Ravikiran Reddy and Vice-Principal Kiranmai lit the ceremonial lamp to start the event. Children recited slokas and later danced along with their mothers in traditional attires depicting the importance of Bathukamma. The students of classes IX and X prepared the traditional floral decoration in a bid to participate in the competition and expressed their joy by dancing to various traditional songs.

The students, the teachers and non-teaching staff enthusiastically participated in the event.
