

Swachhata Pakhwada 2023

Cleanliness plays a crucial role in our daily lives. A sound body is essential for a healthy mind to thrive. This can be achieved by instilling in children the principles of hygiene and purity from a very young age.

At DPS Warangal, we firmly believe, "Cleanliness and order are not inherent traits; they are aspects of education, and like most great things, one must develop an appreciation for them." A clean school environment not only promotes happiness and well-being among children but also enhances their learning experience, ensuring safety for both students and visitors.

Our school is committed to fostering an atmosphere where children not only learn about cleanliness but also put it into practice. They become the champions of sanitation and, in turn, advocate for a cleaner society. We aspire to create a society free from dirt and litter, one step at a time.
